March 15, 2010 – TikGames (San Mateo, CA) and Creat Studios (Canton, MA) today announced that *Wakeboarding HD* will be available for download on the PlayStation®3 computer entertainment system on Thursday, March 18th in Europe and March 25th in North America. The sixth release under the partnership between the two companies to deliver next generation console games, *Wakeboarding HD* features state-of-the-art water simulation and split-screen local multiplayer, and will be available via Sony's PlayStation® Network for \$14.99 / €14.99.

Grab your board and hold on tight! *Wakeboarding HD* drops players into 20 high-speed, water-filled, arcade levels to maneuver through tracks, perform high-flying tricks, collect bonuses and avoid dangers from exploding mines to bloodthirsty sharks. Gamers of all ages can show their skills and wreak havoc as the tropical paradise resort transforms into an action-packed extreme playground.

"*Wakeboarding HD* returns gamers to the intense, over-the-top action of 90's arcade games, combined with the best of modern gameplay. TikGames is thrilled to bring another innovative, high-end title to gamers on the PlayStation® Network," said Anatoly Tikhman, Founder and CEO of TikGames, LLC.

Challenges include performing a variety of assigned tasks while zooming through obstacles at top speed in order to keep action chains alive. Jump the ramps, ride the rails, crash through boats, docks and tourists, collect stars and power-ups, dodge the lurking sharks and evade the treacherous mines while feeling the force of the wake!

“Creat Studios is excited to deliver another high-quality action game like *Wakeboarding HD* to the PlayStation® Network and take advantage of capabilities only found on the PlayStation 3,” said Vladimir Starzhevsky, co-founder and CEO of Creat Studios, Inc. “We are continuing to push our design, technology and gameplay capabilities to bring PlayStation Network players the most engaging and entertaining titles.”

Wakeboarding HD will include PlayStation Trophy support and has been rated “E” for Everyone by the Entertainment Software Rating Board for this platform.
